The cost to ship these Car Kits individually to each school from the UK would be far more expensive than you purchasing them in quantities and then selling them on.

As an example, the cost for Packing and Postage for 1 x Kit would be:

By UPS Courier (signature on delivery) = £35.00

or

By Std Airmail Post (non-trackable therefore non-refundable if the item was lost en-route) = £10.00

**Please note** VAT at 20% is chargeable if the School is unable to provide a VAT Registration Number.

All prices are in Pounds Sterling.

#### Payment Terms

100% Prior to Shipment either direct into our Bank Account or via Credit Card (a 2% fee applies).
